

Minutes from May 7, 2014 SHAC Meeting

The members of SHAC reviewed three human sexuality programs for implementation at Piner Middle School. The three programs were Aim for Success, Esteem, and Saying Yes! To Saying No. It was suggested that whatever program was chosen that the district consider mailing the notifications about the parent meeting home instead of sending them with the students and utilizing the robocall system to inform parents about the meeting as well. The members present then voted using a secret ballot ranking the three programs. Saying Yes! To Saying No will be the SHAC recommendation to the school board for the program to use.

The video about the dangers of energy drink consumption should be ready the week of May 19. This is the video that students at SHS are producing.
